

INTREPID – WG2

FOCUS AND NEXT STEPS

Keep ID definitions pragmatic

Disciplinary research:

Specific disciplinary methodology and/or body of knowledge applied to a given field of investigation

Multi-disciplinary research:

Different disciplinary methods and/or bodies of knowledge applied to the same object of investigation

Inter-disciplinary research:

Same conceptual framework and analysis shared by different disciplinary experts

Trans-disciplinary research:

Disciplinary views and non-disciplinary knowledge (of practitioners, end-users, citizens) co-**KNOWLEDGE CO-CREATION** for a normative purpose (e.g. sustainability)

SCIENTIFIC INVESTIGATION

INTREPID WG2 SYSTEM OVERVIEW

FOCUS

Dialogue engaging academia, funding agencies, innovators, end users to share knowledge about:

- ID research projects
- Criteria for ID research evaluation
- Training methods for ID research facilitators
- Barriers to and solutions for ID career development and applications
- New ID urban research and innovation agendas

to promote

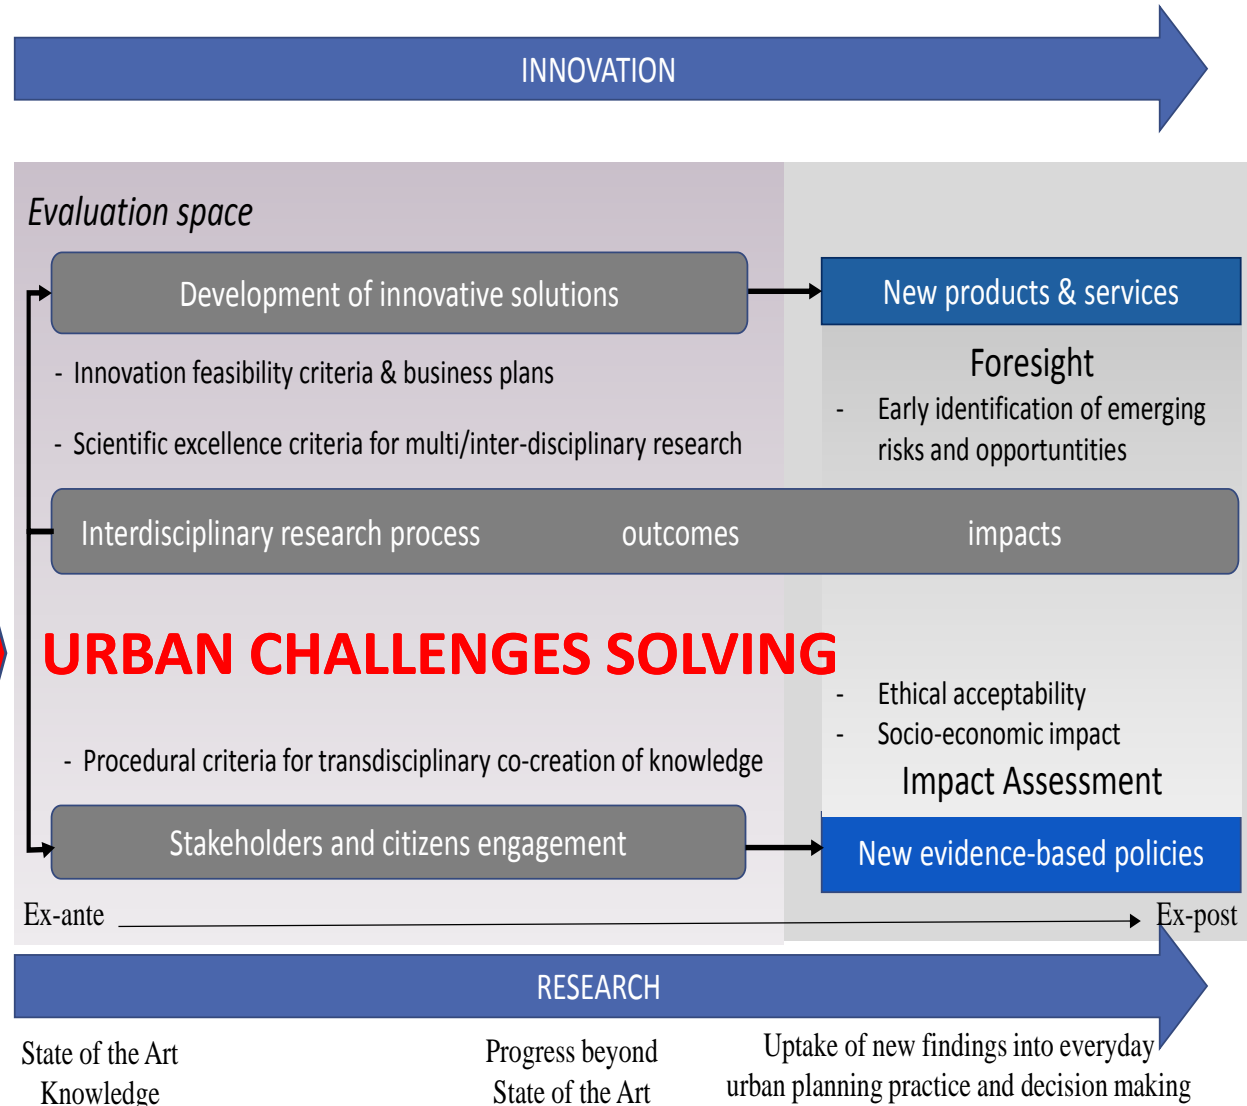

RESPONSIBLE URBAN RESEARCH & INNOVATION FRAMEWORK
